

Dy Free NdFeB Magnet

Features:

- Our Dy Free magnets features similar magnetic property as N50 products.
- The internal structure of the material shows a uniform distribution, and there is no limitation of the dimension specification, it can be applied to any shape and size of magnets.
- The material has very good corrosion resistance (high quality crafts advance the distribution, structure and the ingredient of the Grain Boundary phase, and restrain the corrosion in depth and breadth)

Magnetic Property

44HF Magnetic Parameters

Br	mT	1360 ± 20
	kGs	13.6 ± 0.2
Hcb	kA/m	1035 ± 48
	kOe	13.0 ± 0.6
HcJ	kA/m	≥ 1273
	kOe	≥ 16.0
(BH) max	kJ/m ³	350 ± 16
	MGOe	44.0 ± 2

No Dy 44HF Variable temperature curve
